STRATHCONA NEWS

DR. MCINTYRE RETURNS HOME

Back to S'cona from the Arduous Duties of last Winter's Session at Ottawa

Dr. McIntyre, the popular Federal representative for Strathcona, arrived home last night from Ottawa. The doctor, despite the fact that he has worked hard during the five and a half months' session, is looking in excellent health. While it is a matter of pride to him that he is the representative of the largest rural constituency in Canada, still to properly press at Ottawa the needs and demands of the 61,000 people of this riding is a task that is not an easy one. Dr. McIntyre did not shrink the duty that lay before him and one of the fruits of his labor is that his name is inseparably connected throughout Western Canada with the reduction of railway passenger rates. His efforts per mile—a feat that will be highly appreciated by the residents of this fast growing country.

When seen by the Bulletin last night at the Strathcona hotel, Dr. McIntyre was the model of a group of friends who had gathered to welcome him back to the city.

When Dr. McIntyre left Strathcona on his return to his home in the city he had not yet attained to that dignity. During the last six months it has made won-

dert progress even in that short space, and along this line he was pleased to note the interest and attention that the university city was attracted in the week.

Speaking of the weather, Dr. McIntyre noted the Bulletin that what was well experienced here was not characteristic of the climate of Northern Alberta. In Montreal, Ottawa and in Manitoba, conditions were very bad, and Alberta was fully as far advanced as any of the other western provinces.

Dr. McIntyre outlined the method by which he was successful in bringing about the reduction of the railway passenger rates. There were several who wished to press for a uniform rate of two cents per mile. Instead of raising his voice with these forces in the hope of securing his half cent he went directly towards his goal and the means by which he effected this have excited the admiration of everybody in the country, excepting the railway corporations. The new rates come into force on May 15th, the expiration of the sixty days' notice given.

What will be the result of the insurance commission's report? The doctor was asked.

"I cannot say yet," was the reply; "but this commission submitted a draft bill and this may be dealt with at next session."

The general problem of western transportation has been one of the big difficulties of the western representative. When it is suggested that the railway companies be compelled to increase their motive power the reply is that they would buy it if they could only get the engines. Eastern cities are also complaining, but with them the inadequate transportation facilities is only a matter of income. Here, in the west it is a matter of life and death.

"The doctor took the ground that western life should be penalized, while the eastern branch should be permitted to go ahead. His idea, and one that not general favor, was that where there were already competitive lines further extensions should at present be permitted, but in districts where railway facilities did not at present exist, permission to build should be granted."

Dr. McIntyre was the promoter of the branch line to Strathcona from Camrose. He could not give any definite time as to when it would be started, but he thought work would be commenced with the completion of the Wetaskiwin-Kirkella branch.

"What will be the result of the timber investigation?" the doctor was asked.

"That I cannot say yet," was the reply. "The commission were to report on the question as to whether a combine existed and this they said was the case. They were not authorized to report on its effect on trade, if any."

"The question is a very difficult one for solution," Dr. McIntyre explained. "One way out of the difficulty would be the appointment of a permanent commission to examine the cost of lumber from the forest to the retail yards. This would require very able men, but they would do a great deal in improving the present situation."

Another of the important matters affecting the district more directly was the redistribution of the western ridings. "Will the west get more cab-

inet representation?" the reporter asked.

"The rapid growth of Western Canada will shortly call for such," was the reply. "Manitoba and Saskatchewan were already think they should have a cabinet minister and are pressing their demands which must soon be accepted too."

URGENT NEED FOR ACCOMMODATION.
The urgent need for more hotel accommodation in Strathcona was apparent on Saturday evening when a Pullman car, filled with passengers arrived over the C. & N. The hotel was crowded to their utmost capacity, no private houses were available and leave was appearing on the scene where the new arrivals could stay. Under the circumstances almost the entire party remained all night in the Pullman, paying at the usual rate of \$2. This was only possible, of course, on Saturday nights as the car would not necessarily have to be prepared for the morning train on each day except Sunday.

LOCALS.
Among the arrivals in Strathcona Saturday night were C. Scadden, Ferguson, and S. McArthur, New Westminster, en route for the Yellowhead Pass and J. Sutherland and wife, bound for the Peace River, where they will be in future news.

The census last evening was three hours late. There was an exceptional large number of passengers.

The funeral of the late John H. Keller took place yesterday afternoon from his son-in-law's residence on South avenue to the Strathcona cemetery. The funeral service was conducted by Rev. T. J. Johnston.

The Star line business on Whyte avenue has been sold by J. J. Sharkey to J. Berube.

Edith first met a valuable horse last week. The animal, for which the owners had recently refused \$225, ran away and caught her foot in the wheel of the buggy, breaking it, and she had to be shot.

The regular monthly meeting of the Board of Trade will be held this evening. From current street gossip it is probable there may be some interesting discussions.

Twenty-Five Years Ago Today
Under the caption, "Twenty-Five Years Ago," the Bulletin has inserted an interesting column which will appear every Saturday. It is a weekly paper for the reason that twenty-four years ago the Bulletin was a weekly paper, and the smallest in the world at that time.

Today, however, a member of the Bulletin's charter subscription list landed us a copy of the issue of May 13, 1894, which is exactly a quarter of a century ago today. From this issue the following items are taken:

Fresh potatoes cost 18c a bushel. Owing to the scarcity of seed very little oats will be sown this year.

FOR THE MAN IN A TENT

The greatest matter of importance is a satisfactory cookstove and to be satisfactory it must be strongly built and portable, with large fire pot and good oven.

OUR MISTAKES.

We better life for postage; sell true blues
For wealth or power, pleasure or renown.
Thus I feel like my Father's blessing
That wash with fruitless tears our faded crown.

IAN MACLAREN'S DEATH.

Ian MacLaren's untimely death, has created interest in the life of the great writer at its different phases. To his mother's life seems more intimately important than his childhood days.
The formative years of childhood were spent in Scotland first at Perth and then at Stirling his parents having resented the border when he was but four years old. He was an only child, and his parents were both remarkable persons allied. To his mother's influence and gifts are due much of her son's equipment in life.
Dr. Watson's Mother.
To the observant reader of "The Bonnie Brigs" it is needless to add that Dr. Watson's mother died when he was still a young man.
Mrs. Watson was a lady of remarkable character, and her deep religious earnestness of her Highland ancestors, but with a quick eye to detect extravagance of religious sentimentality. She was nurtured in a home where the sweet sanctities of affection were blended with robustness of Christian character.

"I knew her father and mother," an aged friend has said. "They were sweethearts at the end of their wedding life at its beginning. Though firm in her religious convictions she was not like her husband an Evangelist, but learned rather to the highest type of moderation, as it is called in Scotland. The name in England would perhaps be broad."
His School Days.
Ian MacLaren's school holidays, and in later years his college holidays, were largely spent at Gornack, an aged friend has said. "They were sweethearts at the end of their wedding life at its beginning. Though firm in her religious convictions she was not like her husband an Evangelist, but learned rather to the highest type of moderation, as it is called in Scotland. The name in England would perhaps be broad."
His School Days.
Ian MacLaren's school holidays, and in later years his college holidays, were largely spent at Gornack, an aged friend has said. "They were sweethearts at the end of their wedding life at its beginning. Though firm in her religious convictions she was not like her husband an Evangelist, but learned rather to the highest type of moderation, as it is called in Scotland. The name in England would perhaps be broad."

WOMEN AND BRIDGE.
A new use has been found in bridge by a writer in an eastern paper. It reveals character, she says.
"You may know a woman in a dozen years, and not know as much about her mental makeup as you would learn from playing at the same table with her for one afternoon.
The ideal bridge player must have perfect self control. That is the first requisite, of course, after learning the game. She does not grumble when her cards are bad and she has her partner when that unfortunate woman faces down a Yarborough at "the trumps."
Even the expression of the face must not change. A great bridge player should never make it possible to know from his words or expression whether he is winning or losing. There, women bridge players, is something for you to strive to attain!"

KING EDWARD'S DIPLOMACY.

The French press regards King Edward's continental tour, recently concluded, as being fraught with large political significance. One paper states that the King has demonstrated that he is a master of diplomacy. He has succeeded in applying to Germany, from the political point of view, the continental blockade which Napoleon failed to apply to England commercially.
"Were King Edward twenty years younger," it says, "the result might be dangerous for the peace of the world, but a man of sixty-six, will hesitate to risk the grand coup."
MARRIAGE OF ELLEN TERRY.
Ellen Terry, the great English actress, who won her laurels as a co-star with the late Sir Henry Irving, has, according to James Carew, taken her last husband. Her last husband, James Carew, was her leading man during her recent American tour, which recently closed at New Haven. Carew announced the nuptials in New York, says a despatch from that city. Miss Terry was fifty-nine years old in February last. Carew, married to thirty-three, and he looked even younger.

It appears from the story that Carew told that he and Miss Terry had been married a secret since March 22, when, with the assistance of a justice of the peace in Pittsburgh, they took each other "for better, for worse."
Miss Edith Craig, Miss Terry's daughter, who was the company's stage manager, was the only one in on the secret, and Carew, "who was present at the ceremony. There had been a formal engagement between us for some time, and when I came to Pittsburgh, returning from our western tour, we decided to get married."
Our drawing to each other began with my admiration for Miss Terry's great art. We have known each other for two years. This admiration ripened into love."
One important thing among the Carew announcements was that Miss Terry would continue to act at the stage.

SOCIAL.
Mr. and Mrs. Netherlender of Toronto announce the engagement of their daughter, Cecil Evelyn, to the son of Charles Cambie, assistant manager of the Canadian Bank of Commerce, Toronto, eldest son of the late Mr. Alexander J. Cambie, Ottawa.
Among the Canadians who had the honor of being invited to the Marlborough House, the residence of the Prince and Princess of Wales, on the evening of April 10, were: Sir Wilfrid and Lady Laurier, Hon. L. P. and Madame Laurier, Sir John and Mrs. Jordan, Miss Melvin Jones, Miss Blanche, the daughter of the late Mr. R. M. Venning.

GRAND DUKE MARRIES.

The Cousin of the Czar Enters the Matrimonial List.
Vladimir, Prince of the Grand Duke Nicholas Nikolaevich was married here today to Princess Anastasia of Montenegro. Grand Duke Nicholas Nikolaevich, who was born in St. Petersburg November 6, 1868, is a second cousin of the Emperor of Russia, president of the council of national defence, commander of the military district of St. Petersburg, and inspector general of the cavalry, besides being a number of other military offices.

OTTAWA BARTENDER SUICIDES.

Shot Himself Through the Temple—Married Only a Month.
Ottawa, May 12.—Oliver Deslauriers, 33 years of age, a bartender at the House, committed suicide last night by shooting himself with a revolver. He committed the act in his apartment, 405 Copper street, holding the revolver in his hand and his head against the wall, the bullet passing through the right temple. Deslauriers was married only a month ago. He is a brother of Harry Deslauriers, a well known local sportsman.

DON'T SPIT IN THE PEG.

Winnipeg, May 12.—Expectorating on streets, and other disgusting places of a similar character will likely be an offence punishable by heavy fines hereafter tomorrow, when a by-law prohibiting such filthy practices will be presented to the council.

Tenders for License to Cut Timber on Dominion Lands in the Province of Alberta.

SEALED TENDERS addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 1260," will be received at this Department until 12 o'clock noon on Wednesday, the 24th day of July, 1907, for a license to cut timber on Berth No. 1260, comprising land situated in the Province of Alberta, and described as follows:
Timber Berth No. 1260, commencing at a point on the Western side of Red Deer River, where the same is intersected by the upper boundary of Timber Berth No. 1261, then an stream six (6) miles in direct distance with a depth of two (2) miles on said Western side of River, measured at right angles to the general bearing of said River within the Berth; the lower boundary to be the upper boundary of Timber Berth No. 1261, containing an area of twelve (12) square miles, more or less.
The berth must be surveyed within one year after the date of the notice awarding the berth.
The regulations under which a license will be issued, and printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at Edmonton, Alberta.
Each tender must be accompanied by an accepted cheque on a chartered bank in favour of the Deputy of the Minister of the Interior for the amount of the bonus which the applicant is prepared to pay for a license. The highest or any tender not necessarily accepted.
No tender by telegram will be entertained.

PERLEY G. KEYES, Secretary, Department of the Interior, Ottawa, 24th April, 1907.

THE HUDSON BAY RAILWAY.

For twenty-five years the people of the West have anticipated and advocated the construction of a railway from some central point in the prairie provinces to the Hudson Bay. The agitation began in 1880 or 1881, and in the latter year one or more charters for such railway were granted by Parliament.

When the general Dominion Lands Act of 1884 was framed, special provision was made in that act for giving a land grant in aid of the enterprise. This provision was that for every mile of the line within the boundaries of the Province of Manitoba the company building it should be given 6,400 acres of land, and for every mile from the Manitoba boundary to the Bay 12,800 acres. This statute is still in force and it is within the power of the Government by Order-in-Council to grant this aid to any company building such line.

In the latter eighteen an attempt was made to construct the Hudson Bay Railway from Winnipeg. Some 40 miles of the route was actually constructed and ironed, but the company was unable to continue the work, despite the fact that the then Manitoba Government had pledged the credit of the Province to assist. The section completed was acquired by MacKenzie & Mann in recent years and is now operated as part of their system, but does not form part of their proposed route to Hudson Bay.

In 1894 the Canadian Northern began the construction of the Hudson Bay line from Gladstone, Manitoba. The line was built in a north-easterly direction to the Manitoba boundary and beyond to Prince Albert. From Erwood, a point on the Saskatchewan section of this line, the road to the Bay was begun, designed to run in a north-easterly direction to Fort Churchill. In the summer of 1906 it was entirely placed under construction and partially completed as far as the Saskatchewan river, leaving a distance of 44 miles to be built from "the Pass" to Fort Churchill.

In 1905, the then Government passed an Order-in-Council scheduling 8,000,000 acres of land in Manitoba and Saskatchewan from which the company should be permitted to select its grant in respect of that portion of the line south of the Saskatchewan river; and providing that the line from the river to the Bay should be selected along the line itself. It is subsequent order it was also provided that the land granted for the line south of the river must be earned by 1906, and, curiously enough, that the north of the river must be earned by 1906. The line having been completed to the river within the time limit the company is, of course, entitled to the land granted in respect of this portion by the former Dominion Government; but the line from the river to the Bay not having been built within the time limit the company's right to the grant made in 1905 expired last summer and has not been renewed.

The situation, therefore, at present is: A portion of the road has been built within the time specified and the Government is bound to carry out the undertakings of its predecessor by making the grant of land promised in respect of this; but the northern portion of the line has not been built within the time limit and the obligation of the Government to make a land grant in respect of this portion has ceased. The power to renew such provision is vested in the Government by the Land Act, and that question before the Government is whether it is better to renew the provision for a land grant, or to retain the land and give whatever assistance is necessary in some other form.

It has not been the policy of the present Government to make land grants to railways, and it is not the intention to renew the land grant provision for the remaining portion of the Hudson Bay road. Thanks to the grants made by the former administration, 32,000,000 acres of the most fertile land in Western Canada has passed from the possession of the public into the hands of the railway companies. The land grant promised by the present Government in respect of

the still uncompleted section of the Hudson Bay line would require some 6,000,000 acres more. The Government has the opportunity to annul this provision and to retain the 6,000,000 acres for the settler and this it is proposed to do. How much the settler and the country by this is a simple calculation. The cheapest railway land in Western Canada today is worth about \$3 an acre. At this minimum price the 6,000,000 acres reserved to the country means a gain to the settlers of the West of \$18,000,000. And the gain will be made by the pioneers who must deserve it and who would be the least able to sacrifice it.

But the railway must be built or faith will be broken with the Western country. And the company who have constructed a portion of the road in anticipation of the land grant will doubtless be unwilling to complete the enterprise without assistance of some kind. The purpose of the Government as outlined in the introduction of the new Lands Act is to take the proceeds of the pre-emption sales to recoup the national treasury for the considerable assistance to the cost of the enterprise. But it was not considered fair to accomplish this by turning over the land to the company and thereby enabling them to hold up the settler for fancy prices. The pre-emption plan was therefore adopted with a view to going the proceeds to recoup the national treasury for the burden assumed in completing the line. Under this plan the road will be completed, the settler will get the land at a minimum price and the country will not be unduly burdened for the construction of the road.

A FALSE ALARM.

The Journal makes "a prominent politician" do a foolish thing for it for lack of something better to say about the Government. This time Hon. W. H. Cushing is the bad man and his crime is a job to steal the capital. Mr. Rutherford and Mr. Cross are away and the Journal's nightmare is that Mr. Cushing cannot or will not do anything toward beginning work on the capital buildings, and something is then to turn up by which they will be transferred to Calgary.

The brilliant reasoning of the Journal article runs this way: "Nothing is being done this season, nothing may be done next season." Isn't this marvelous logic? The site for the buildings was procured two late last fall for work to begin and this has been such a delightful spring that it is surely logical to say if nothing is done that nothing will be done. Then, of course, nothing will be done next year and the whole affair is off. The work of erecting the buildings under the direction of the Public Works Department, so how can it possibly go ahead in the absence of the Attorney General and the Minister of Education? The Journal article says, "It is time something decisive was done to clinch this thing." What is the decisive thing? The Legislature of the province was asked to decide this question and they decided it now for all, nothing more is needed and nothing more could be done.

When the work of the landscape gardener is completed and the Parliament buildings the Journal will feel soothed as it must have when the Supreme Court of Canada decides the emergency to contradict its opinion of Hon. Mr. Cross' "faulx" legislation, but the Tory organ here must be getting tired of this kind of thing, as its principle business is that of putting up straw propositions for the political denouement of demolishing them. It is marvelous how serious some people take themselves even when they are only romancing.

NOTE AND COMMENT.

The poets of the United States will have to form a union to get themselves recognized.

With the perfection of aerial navigation we may expect a large number of immigrants from the Land of Mars.

It is rather embarrassing that the birth rate in the city of Toronto should increase just when the milk strike is on.

We shall have to wait some time yet before we are sure whether Arthur Ballou's conversion to preferential trade is a conviction or a fad.

other day in Cuba. That's as far as the United States Government has succeeded in Americanizing the Cubans.

The Mail and Empire makes a vicious blunder when it declares that the Laurier Government took the Potemkin lands to merely annoy Ontario. Such reprehensible charges against public men amount of date in the larger whiter day of the 20th century.

CALGARY.

Calgary water users, whose pipes have been frozen for several months will have to pay for the water just the same, the frozen connections being private property.

P. Burns & Co., will establish a \$100,000 soup factory in Vancouver. Mr. Treasurer Burns says that all who are in arrears for light may find one day, but very far distant, that they are in darkness, as far as burning the light of the city is concerned.

MACLEOD.

The material for the improved telephone service has arrived. When the new cables are installed we are promised a telephone service second to none in the West.

Some farmers are rushing along their spring work. A young man living in Willow Creek has been sent up for trial at the Supreme Court on charge of attempted train-robbing.

STETTLER.

Some of the citizens of Stettler were waving prairie flowers in their button holes last week, but the weather has not yet warmed up sufficiently for them to be numerous enough for a table bouquet, as was the case this time last year.

Councillor Burdick and Mr. W. M. McKee, who have both had a severe attack of the mumps, are now doing well, and it is hoped will soon be about again.

The Black Cat, which was projected here, has fallen through for lack of capital.

HIGH RIVER.

Mon. Henri Massieu de Clerval left yesterday for New York, where he will take steamer for Paris, France. He will be absent about six weeks.

Cliff McElreath, the peer, was in his prime one of the fastest and best racing horses in all the West, has recently been sold by Mr. Jack Matheson to a gentleman in Charleston.

The High River Trading Co., have under contemplation the enlarging of their present premises this summer.

High River really is moving, and big prices are being obtained. The majority of the buyers are men who purpose raising stock.

Paul C. Black, proprietor of the Alberta Implement Co., has unloosed a steam plowing and threshing outfit which he recently sold to Messrs. Schroeder and Hagler.

Ed McConnell pleaded guilty and was fined by Magistrate Holmes for starting a prairie fire. McConnell is a farmer and in carelessly burning his straw stack, set fire to the prairie grass in the vicinity.

The security of houses in High River might be called into question if being almost impossible to rent one at the present time.

Notwithstanding the snowfall last week, farmers in this district were able to plough their land each afternoon, as a result are so much ahead with their spring work.

The license inspector, Mr. Chamberlain, paid High River a visit. He found everything satisfactory as regards the conduct of the hotels and commended the proprietors on having such commodious and well-kept houses.

SPORTING NEWS

THE EDMONTONS
WIN TWO MORE
THE SPORTING
EVENTS THIS WEEK

Pols are Still Unbeaten: Had to go home to win Saturday's Game.

Special To The Bulletin.

Sand Point, Idaho, May 11.—Sand Point gave Edmonton a hard game today to win by a 4-0 score. McQuinn was on the rubber for the Twilight League and he held the locals to a hit, one of which was a home run. He looked at one time as though he would score a shutout, but he eased up in the seventh and another hand after him hammer and totem Sand Point had a bang-up knockout working, and he kept Edmonton guessing. Last found him for a three-bagger in the seventh which nearly broke up the game. Wheeler in left field made a magnificent catch off the fence running with his back to the ball. Adams was on the bench with a bad foot. Bears are playing the entire garden.

In tomorrow's game Edmonton will be stacked against Bardell, the leading pitcher in the Northwestern League last year, and another hard game is expected. If Bardell were with Edmonton, he would sign for playing great ball.

Sunday's Game.—Wheeler and Kilduff are playing great ball. Wheeler pitched six innings today, letting Sand Point down without a hit or even a run. Thomas lobbed them over during the next three innings and let them get out. The final score was 2 to 0. Wheeler got a home run on bases. Last, who got two doubles. Every body hit hard and often. Grimes, Adams and Bennett securing three singles. The team plays Missoula tomorrow.

CALGARY WON TWO.

Best Ottawa twice, Saturday and Sunday, Play Winnipeg Wednesday.

Calgary, May 12.—Under new management Calgary is an almost entirely new ball team, and results are apparent. Calgary beat Ottawa on Saturday by 8 to 0, and on Sunday by 7 to 0. In the first game, Grimes, who hit Ottawa down to two hits. The team now is as follows: Grimes, Russell, Merritt, Cathers, Anderson, Shyne, Chandler, infelers, Russell, Taylor and O'Neill. Of the four Calgarians started with Driscoll and Farrell also remain. The team plays Winnipeg Wednesday.

ENGLISH-RUNNER WANTS TO MEET LONGBOAT.

New York, May 12.—Alfred Schrabl of England, the greatest distance runner in the world, was a passenger on the White Star liner steamer Cedric, which arrived today from Liverpool. Schrabl's purposes in coming to America is understood to be to give exhibitions and if possible to arrange a series of professional matches with Tom Longboat, the Indian runner, who won the Boston Marathon last month. Whether a meeting with the best-footed Canadian can be arranged, however, is in doubt, as the latter is still an amateur. After a tour of Australia, the Englishman was suspended for some infraction of amateur athletic law. Schrabl has never been reinstated.

While an amateur, Schrabl represented the South London Harriers, and wearing the colors of that club, made several remarkable runs. He made new figures for the first time in the mile from two to ten minutes, thus beating the professional marks.

DIAGRAM OF BASEBALL GAME.—Once more the season comes around. To Fan the bleachers' flame. The while excitedly he sees A simple baseball game.

The pitcher twirls his arm around. Then cunningly he swerves. And to the batsman speeds the ball, Describing magic curves.

Thus every fan, in white-hot rage, At once it would be like. 'Tis round the umpire he could drop.

The batsman this is in the air. Until the umpire—heartless cur—Falls a cry of "Foul!"

Thus every fan, in white-hot rage, At once it would be like. 'Tis round the umpire he could drop.

Killed Child for Vengeance.

Jersey City, May 12.—A child murdered with vengeance on the father as the possible motive, furnished the police today with an unusual case. To all appearances, Andrew, the four-year-old son of Sgt. John Molloy, of the police station, was killed by a blow on the head and his body was thrown into a clump of bushes within three hundred yards from his home.

American Tennis Team to Practice: Chess Tournament to Open. Bowling at Rochester.

New York, May 12.—The present week promises no sporting feature of great interest, though several events of some interest are scheduled. Practice games for the American tennis team which will compete in the English tennis championships and the Dwight Davis international cup will begin probably at Philadelphia this week. While two men, Hells Wright and Karl H. Behr, have thus far been chosen to represent the United States, another player who develops championship form in the trials will doubtless be added to the team. The players will sail for London on June 20th. Miss May Sutton, a Californian, who goes to England, to try to regain the English championship for women, is playing today before large galleries on the indoors in New York, and is gradually rounding into her best playing form.

Chess at Oxford.—At Oxford on Wednesday the third international chess congress will open with thirty entrants. Each contestant, under the same rules, plays a game with the others. All the well-known experts are entered. A championship tournament will begin on Wednesday also, with Frank G. Marshall, Schach-Lasker for the championship and Troesch competing. Twenty rounds will be played, and the winner must seek Lasker for the championship of the world.

Bowling at Rochester.—Bowlers from all part of the state will gather at Rochester this week to hold the various prize offered by the State Bowling League. The entry list is large, and includes many of the best bowlers of the state. The strongest sort of competition is promised.

Six-day Roller Skating Event.—Numerous entries are being received for the roller skating race which will be decided in Brooklyn beginning on May 25th. Conditions will be similar to those of six-day bicycle races. Skaters from Philadelphia, St. Louis, Cincinnati and Boston will be among the contestants.

Opening of Polo Season.—The polo season under the auspices of the Polo Association, will commence tomorrow at the grounds of the Acme Polo Club, Hartford, Conn., and will last until September. This season will be opened by a match of the New Haven Polo Club on May 15th, which will last for a week. All the well-known teams of the East will take part in the games of some time during the season.

Regatta Association Meeting.—The annual meeting of the Middle States Regatta Association will be held tomorrow in this city when officers will be elected and a course for this year's regatta chosen. This option in rowing circles seems to be that they will take place on the Harlem river, probably in September. Entries for the Boston Athletic Association, the United States Regatta, the Pennsylvania Regatta Club, the Polo Club and, in fact, from all the clubs contesting last year no exception.

Semi-Professional League.—To Be Organized in Regina—Will Em. Regina, May 12.—The Saskatchewan semi-professional baseball league will be a re-organized body with a couple of weeks, for on Wednesday May 15 representatives of at least eight towns will meet in this city to complete arrangements for the organization and to draw up a schedule for the games to be played. The teams will be composed of men from the home players, as well as a few imported players, who will make strong aggregations. In this way the heavy expense necessarily attaching to a purely professional league is done away with, and at the same time the attainment of professional ball is maintained.

The League.—There will be eight teams in the league. One of the 80 line is assured, as one of the Aroia line, with the C.N.R. main line, with the balance made up of teams off the C.P.R. and the Regina and Prince Albert line. Regina and Moose Jaw, as the premier cities of the province, will of course take part; Weyburn will represent the 80 line and Heyward will come in from the Aroia branch. On the C.N.R. main line line has represented the intention of playing, and the other teams on the line are Saskatoon, Haldy and Oak.

Many Americans.—The fact that in these leagues named there are hundreds of Americans has been given a great impetus to the game. Americans are fond of baseball no matter where it is played, and they largely due to their opinion that the teams are played in the field at all.

On May 16, 17 and 18 Regina will get its first light of professional ball, or on these days there will be a series with the Calgary team. The under the auspices of the Regina, Boston, where they have been training in the Alberta league. They have a fast team, and to compete with them Regina is importing three men from Minneapolis and a couple from Saskatoon. The remainder of the team will be home boys who know the game.

How Pabst Grows Malt

Malt is the body of beer. It is what makes beer a food, rich in health-giving qualities.

Malt is barley-grain, sprouted and partially grown. Most masters follow this process in three or four days time.

Pabst takes the full eight days as required by Nature, with the result that Pabst gets a nutritious, strength-building malt.

It takes Pabst longer and it costs Pabst more to make this perfect malt, than this Eight-Day Malt Process retains in

Pabst Blue Ribbon

The Beer of Quality

the fullest amount of tissue-building nourishment of the barley—the grain richest in food values.

The Pabst Eight-Day Malt Process is much the same in its action as the process of digestion. Pabst Malt is practically pre-digested. Pabst Blue Ribbon Beer is actually ready for the system to assimilate without the necessity of first taxing the stomach to digest it.

When ordering beer, ask for Pabst Blue Ribbon. Made by Pabst at Milwaukee And bottled only at the Brewery.

The Acme Company, Limited

We Consider Your Comfort

In making the alterations of our store we have ever kept in mind the value of your comfort. Everything that goes to make a customer feel perfectly at ease in our store has been considered. Chairs for all, the fastest, safest and best elevator in the City. The Ladies' Rest Room on the second floor all goes to prove what an interest we have taken in providing for your comfort and your convenience.

In Return

we have been amply repaid for our trouble by the many complimentary remarks of our customers, which, we assure you, is gratification in itself. We extend to one and all a hearty welcome to our store at any time. Make this store whatever convenience you will, you will find us ever ready and at your services.

The Acme Company, LIMITED

You could make good money as a "CAPITAL" agent

Some CAPITAL agents are busy farmers. Some are creamery helpers. One of the best ones is a minister. They make good money, and they don't have to work too hard to make it. They make clean money, because the CAPITAL agents to be the cream separator. It isn't necessary to lie about. The plain truth sells it.

This spring we are expanding our field force and adding a few good men to our agency staff. Possibly we can fit you in, if you are the right kind of a man. You needn't be a dairymonger; and you needn't put up a cent of money. You can do your other work and sell the CAPITAL brand, if that's the way you'd rather have it. It will add much to your year's earnings, even that way.

Or you can make a business of the CAPITAL— a good business, substantial, permanent, reliable, and on the square all through.

We want ten good men Suppose YOU write

There are ten districts or so, right now, where a good man can start in and sell CAPITAL Separators to people who are ready to buy them just as soon as the machine is demonstrated to them. Each of those districts is for the right man, and he can have the field to himself. But he must be the RIGHT man—truthful, honest, clean cut, with good common sense.

For that man there's just as much money, in reason, as he wants to earn under a liberal, square-deal arrangement. We will protect him in his field, supply him with the names of people ready to

buy a CAPITAL; introduce him to those people; work with him all the time, and pay him well for whatever he does. We will teach that man how to show people why one separator is profitable and another loss so, and why the CAPITAL will make more money for the farmer most easily.

We will show him why the CAPITAL is the best separator there is to run—the cheapest to keep clean—the one that PROVES itself— the one that is a common-sense, low down back-saving tank. We will convince that man, no one can convince others, that the CAPITAL Separator gets ALL the butter-fat out of milk with less effort and greater certainty.

We will prove to that man beyond question, that the CAPITAL skimming device is the simplest, the surest, and the easiest to operate, day in and day out—the easiest to clean, day in and day out—the easiest to wear.

That much we will do for anybody who will write and ask. Besides that, we will teach the right man how to sell separators, and demonstrate to him why the CAPITAL Separator is the one to PROVE itself. So the ONLY one any farmer can really afford to buy.

The right man can learn all this quick and he can learn, too, how we make the CAPITAL pay itself in a very few months' time. The selling terms are the easiest kind of terms. The guarantee back of every CAPITAL machine absolutely protects the customer and the agent a feeling of solid security that's worth having. It's a fair game, straight ahead, and the right kind of a man to make money and make friends for himself. The CAPITAL does that for every man who sells it, because it makes money for every man who buys it.

Think it all over—remember you are not called on to invest a cent—we will show you how and where to sell the CAPITAL— protect you in your district—and hand you over a paying territory that will profit you well for as much or as little time as you feel like.

Think it over, and—no matter where you live—write to

The Safe Tonic for Young and Old

The "Canada Lancet" (the leading medical authority of the Dominion) says of Abbey's Salt:—

"Its ingredients have been repeatedly analyzed by expert chemists, and have been pronounced fully up to the requirements of the test for purity as laid down in the latest edition of the British Pharmacopoeia. We consider Abbey's the best effervescent salt made in any country."

Get well and keep well by taking a morning glass of

Abbey's Effervescent Salt
25c. and 60c. a bottle. At all Druggists.

EN ROUTE TO THE POLAR REGIONS CHARGED WITH ISSUING CHEQUES

Mounted Police in the City
To-day for Herschel Island.
Two Years in North

In route to the far north, where they will live for the next two years in the barren wilderness of the Arctic Circle, Inspector Jarvis and a detachment of four men of the Royal Northwest Mounted Police, arrived in the city yesterday, and have to start tomorrow morning by way of Athabasca Landing for the polar regions. Upon their arrival by boat at Herschel Island, they will relieve Inspector Howard and his detachment who will return to the more civilized world after a sojourn of two years and find the same and few of the arctic.

It is expected that Inspector Howard and his party will arrive in Edmonton before fall. What their experiences will be as they note the advancement of the west since their departure can easily be surmised. To them the world history of the past two years has been almost a blank, for in the land of the midnight sun there is no news from the outside world are few and far between.

Inspector Jarvis and his men will have a long weary trip to Herschel Island, situated several hundred miles within the Arctic Circle on the Beaufort sea.

The men, who are all single, are looking well, and are apparently just the sort that can undertake such a trip. They are all from headquarters at Regina, and are thus entirely dissociated from the local staff.

The mounted police were originally sent to Herschel Island on account of the sensational reports of disorders and debauchery caused by American whaling crews wintering among the Esquimaux on the island.

Sgt. Jarvis, who is in charge, belongs to the well known Toronto family of that name, which includes Harold Jarvis, the famous Canadian tenor, Major Jarvis, well known in these parts; W. M. Jarvis, of Red Deer, and others whose number is so great and whose fame is so widespread that a voluminous book on the history of the Jarvis family has been written and published.

The start will be made tomorrow morning. The trip from Athabasca Landing will be by steamer down the Mackenzie river to Fort McPherson, and from there by whaling vessels. It is a long, slow journey and will occupy several months.

A young man named Charles Anderson is under arrest at the police station, charged with issuing worthless cheques on the Imperial bank. Anderson, it is alleged, passed a number of these cheques on men around the city, and when the latter presented them to the bank, they found there was no funds to cover. The case will likely come up for hearing this afternoon or tomorrow.

The young Englishman, named Wilfrid Eckhling, who was pronounced insane last week, has been removed to the W. M. F. hospital, and will be taken to Brandon insane asylum to-day or tomorrow.

The adjourned case against the Chinaman, Sam Sing, charged with threatening to kill Jim Wah, will come up tomorrow morning. The missing witness has not yet been located.

On Saturday afternoon Jos. Levalley appeared on a charge of cruelty to animals in unnecessarily and unmercifully beating a dog with a board, containing protruding nails. The defendant lives on Sixth street, and the offence was alleged to have been committed on Thursday night last about 9 o'clock. The evidence of the prosecution was to the effect that the accused was seen beating a dog in his yard, and another neighbor, who, by the way, was the complainant, testified that he and his family had heard a dog howling for some minutes. When he went to the door he met the previous witness, who told him of what he had seen. The defendant asserted that he only drove the dog away from his door, after it had been howling there without cause for some minutes. In doing so, he hit the dog twice with a short stick and not with a board, as the complainant, a more formidable looking weapon. After considering the evidence, the magistrate dismissed the case.

In the evening the defence in the Williams case against Pete Disscher was heard. Disscher was charged with having hit Williams across the face with a shovel, and as a reason for his attack he alleged that Williams was annoying the horses in the barn of the Edmonton feed stores, where the defendant was working.

Is There Any Old and Dingy Furniture in Your Home?

If there is, you can make it look like new—give it a rich, natural wood finish with

SHERWIN-WILLIAMS VARNISH STAIN

Fine for wood work too. Not a new "fad" product, but one that has been made and sold widely for years. It correctly imitates all the hardwoods. It spreads easily and anyone can apply it. A small can goes a long way—try one.

We'll be glad to show you other cards

GOING UP! -- GOING UP! All Lots in "Grand View Heights" Will be Advanced \$25.00 per lot on May 15th

This beautiful sub-division has certainly been a surprise the way it has sold. There are still a few choice river views left which will bring the top price very soon. You could have bought the river views in Groat Estate very cheap a short time ago—well ours are just as nice.

Remember that "Grand View Heights" is only a short walk from the University site and will undoubtedly be one of the best residential parts on either side of the river and property that will command a big price. If you want it for speculation it is sure to make you quick money. There is to be a good many houses built there in a very short time.

DON'T BE TOO LATE
